

Bow School District
Personal Networked Information Device Usage Agreement

Purpose:

The purpose of this Agreement is to establish an understanding with users of personal networked information devices that the Bow School District has a right to protect its network and technical resources.

The Bow School District provides its network (**BowNET**) in support of the educational mission of the District. Using BowNET is a privilege. As such, it is the responsibility of each patron to use these services appropriately and in compliance with all School, City, County, State and Federal regulations.

These policies are in addition to Bow School District Acceptable Usage Policy (as posted at <http://www.bownet.org/tech/aup.htm>), are not all-inclusive, and may be modified at any time.

I agree with the following statements pertaining to my personal networked information device usage on the BowNET:

- I agree that BowNET is a shared resource. Thus, using excessive bandwidth for extended periods of time and inhibiting the use of the network by others may result in the termination of my network services.
- I agree that the digital reproduction and distribution of copyrighted materials is against federal law. Anyone found distributing (sharing) such material, including copyrighted music, digitized video from copyrighted motion pictures, copyrighted software, etc.) is subject to termination of their network services.
- I agree that attempts to circumvent or defeat any mechanism put in place by BowNET to manage the network or filter Internet access will be subject to immediate termination of my network services.
- I agree that BowNET may not be used for any commercial purposes or used to provide Internet or BowNET access to anyone outside of the school community for any purpose.
- I agree that forgery or other misrepresentation of my identity via email or any other form of communication is a violation of District Policy. This includes forging of IP addresses or Ethernet adapter addresses to conceal your computer's identity.
- I agree that any unauthorized attempt to access another person's device (on or off campus) is prohibited. Attempts to access the devices of others will result in the immediate disconnection of the suspected network connection until the matter has been resolved.
- I agree to renew my device registration every year.
- I agree that if I leave the District, I will lose all network privileges on BowNET.

- For Microsoft Windows based devices, I agree to have a paid subscription to Anti-Virus software installed, running, and up to date at all times, inside and outside of school.
 - A list of acceptable antivirus programs is available online at <http://www.bownet.org/tech/antivirus.htm>
 - *Since, as of the publication of this policy, there are no known viruses for OSX or Linux; antivirus software will not be required for Apple or Android devices at this time.*
- I agree to keep the device's operating system fully patched with critical and security updates.
- I agree that BowNET IT staff members may examine my device at any time for the purpose of verifying that it is in compliance with this agreement.
- I agree that my device's name is currently _____ and I will notify BowNET IT staff anytime I change it.
- I agree that the Bow School District is not responsible for any support of my device or any possible damage the connection to BowNET may cause. The Bow School District assumes NO responsibility for costs associated with loss or damage to my personal digital device and its associated peripheral equipment.
- I agree that I am only to use BowNET managed wireless access points to connect to the internet from within school grounds. I understand that connection to third party access points is not permitted. BowNET services and wiring may not be modified or extended beyond the area of their intended use.
