

Bow School District, SAU #67

Superintendent's Report

October 7, 2010

I believe that our work session on policies required by law was very productive. This meeting will be a more formal discussion of the same issues. Because of the requirement of soliciting public participation in the development of the bullying and truancy policies, I sent out an alert now e-mail describing this meeting.

Presentations:

The Educational Focus will be a review of my report on the Science NECAP and some updating on the Common Core State Standards, which were adopted by the state school board summer 2010.

Follow-up information:

I have included information on Dress Code and the Open Campus regulations at BHS. These issues were raised at the work session, and the board may want to review these practices in light of the new information.

Action Issues:

Our major work is to continue to refine the policies required by law from the last legislative session. I have obtained an alternate model policy on bullying from our legal counsel and this should add to our discussion. I am hoping that we will have community attendance and participation on these issues.

Committee Work:

Future Issues:

The Budget work session dates need to be confirmed.
We need to set a topic of our October 20th work session.

Non-public Session:

The board should plan on meeting in non-public to discuss negotiations issues.
